

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

A COUNTRY CURATE, accustomed to the duties of an extensive Parish, having long felt the need of some authentic account of the habits and wants of his Parishioners, as a guide in his Ministerial visits, has endeavoured to supply the deficiency, by the following pages, which he ventures to offer to the notice of his brethren in the Ministry, in the hope that the design may be as useful to others, as it has already been to himself.

To a Clergyman, entering upon a new and wide field of duty, in a Parish with which he has had little or no previous acquaintance, a Register, duly filled up by his predecessor, and presented to him on succeeding to office, cannot fail, it is believed, to be of essential service.

"The Clergyman's Private Register" is intended as a Pocket Book, in which may be entered any information that may be gleaned in Pastoral visits.

Questions, relating to a Parish generally, will be found at the beginning of the book, to most of which, it is presumed, a ready answer may be obtained, on reference to Registers and other Parochial Documents, or from information to be derived from Parish Officers.

It will be seen that four pages are devoted to each Family,—the first relating to a Family generally,—the second to each *individual Member* of that Family, from the Father to the youngest Child,—the third to a Lending Library, which most Clergymen are careful to establish *in their* Parishes,—and the last to the relief, in money, food, *fuel, or clothing,* which the Minister thinks fit to dispense in his v *to the sick and poor.*

At the end of the volume will be found an Alphabetical Index, which will enable the Parochial Visitor to turn, with but little trouble, to the particular page devoted to any family, concerning which he may be seeking information.

The book is bound up to contain fifty or one hundred families, as the size of a Parish shall require.

To those who "*have always printed in their remembrance, how great a treasure is committed to their charge—the sheep of Christ, which He bought with His death, and for whom He shed His blood*", no apology will be offered, because none will be required by them, for an attempt, however humble, to add to the usefulness of the Ministerial office; and should this attempt fail of the end proposed, there will be at least the satisfaction to hope, that others, more competent, may improve upon these hints, and produce a work more valuable to the Clergy, which will be welcomed by none more cordially than by

"A COUNTRY CURATE".
